

Rope and Plastic Group

Improve your battery with our handle

Quality Policy

Rope & Plastic Sales (USA) Pty Ltd manage the 3rd party design and supply of products made for the Automotive and Industrial Battery Industry, Marine Applications and General Industry.

As part of our Business Strategy we have adopted a quality management system that meets the requirements of:

AS/NZS ISO 9001

“Quality Management System - Requirements”

We attach great importance to competition based on quality. We recognise that substantial growth depends upon supplying those products, which meet or exceed the expectations of our customers and accepted industry standards in the market sectors that we serve.

We will at all times strive to achieve a level of quality to our customers' instructions according to our contractual obligations and Supplier Agreements.

We shall achieve a uniform and effective quality system throughout our operations. We set objectives relating to quality and ensure that those objectives are met. Quality means first class product and continual improvement.

It is the responsibility of the Quality Manager to ensure that the quality system is documented, implemented and maintained through our staff and subcontractors and the scope statement clearly identified within the Management Manual, ISO Certificate and R&P website.
